The Farmington Civic Association Executive Board has approved the Security Camera Policy! We are excited to share this “hot off the press” information so that all residents know how they can access the data on the system should they have a need.

“The purpose of our state of the art security cameras is to enhance Farmington security and serve as a crime deterrent to protect residents and their property. The project was financed by civic-minded neighbors who joined the Farmington Civic Association. To derive the greatest benefits from the system, this policy was developed for accessing camera data.

Any individual who is not a member of the Farmington Civic Association must pay the current membership fee to access camera data. This amount will be equivalent to the annual membership fee and can be used as dues for the calendar year that the request is made. In addition, an administrative fee of \$50 will be applied. Association members are entitled to this service as part of their benefit package with no additional fee.

The accessed fee for nonmembers is an investment in Farmington and is essential to the equitable distribution of association resources. Nonmembers are required to pay the total fee to the Treasurer of the Farmington Civic Association at the time of the request.

Farmington residents reporting a crime must first notify the Hampton Police Department. The Police Department may request the data through the Association President or designee. The FCA President will update the Board at its next regularly scheduled meeting of all requests for data and other relevant information.

An exception to this policy may be granted by the President and at least two Board members.”
